Invoice issued for the service is issued in "Lek" and "EUR" currencies

The certificate of bi-OS, NOP and Bio Suisse are issued by bio.inspecta, but local price according to this tariff list are directly offered and invoiced by Albinspekt bio.inspecta.

3. Tariffs for inclusion in the Positive List of Albinspekt bio.inspecta

The tariff for registering in the list shall consist:

- Application fee for inputs 30'000 ALL. The valid time for listed input is 2 years
- Application fee for seeds 30'000 ALL. The valid time for listed seed is 2 years.
- The renewal of valid time for inputs and seeds is 5000 ALL.
- Plus additional costs:
 - the working days as based on the Albinspekt bio.inspecta fee (see above),
 - extra laboratory analysis, etc as per the actual market price.

4. Other costs

4.1 Additional inspection

If there is need for an additional inspection (announced or unannounced) the tariffs will depend on the time and costs needed to conduct it (daily fee plus travel expenses plus analyses). The additional inspections are conducted based on the sanctions granted from the certifier, planning of further investigations as result of serious non-compliances with the standards, doubts for use of non-allowed substances, etc.

4.2 Sampling

Sampling will be charged as per the fees defined in the tables above, for the working days spent.

Sampling will be carried out in accordance to Albinspekt bio.inspecta policy (in case of doubts, in case clients demand, etc).

4.3 Additional costs

- **For accommodation, travel expenses and food** as caused from the inspection process (hotel, travel tickets, per diem, etc);
- **For the postponing of the inspection date:** as per Albinspekt bio.inspecta procedures, the inspection date is fixed between the inspector and operator, prior conducting the inspection. In cases when this date is changed or postponed, without a reasonable justification, the client will be charged additional 3% of the total amount of the offer issued.

4.4 Withdrawal cost

- If the client withdraws from certification scheme after the inspection is conducted, the costs for inspection and certification arisen until withdrawal will be charged.

4.5 Issuing "Certificate of inspection for import" according to EEC 834/2007

For each consignment of certified organic products into the EU countries, there is need of a "certificate of inspection for import" (or the so called "transaction certificate"). This certificate makes possible the free movement of goods within the European Union. Please contact Albinspekt bio.inspecta for more information on the procedure of issuing of the "Certificate of inspection". The fee for this service is included in point 2 of the document.

4.6 Appeal of a certification decision

Each operator has the right to appeal a certification decision that is not agree with. Payment for appeals will be as below:

- 40'000 lek to be paid by the operator if the appeal is not accepted by Appeal Committee and the certification decision is not changed
- 20'000 lek to be paid by the operator if the appeal is accepted partially and the certification decision changes partially
- If the appeal is fully accepted the operator does not pay.
- If additional verifications / inspections or analyzes are required from the Appeals Committee, the costs are covered by the operator who appealed the decision.

5. Other services

For any other services offered by Albinspekt bio.inspecta, the daily fee is **300 EUR per day**, excluding VAT. For more information on different services offered by Albinspekt bio.inspecta please visit www.Albinspekt bio.inspecta.com

6. Offer for the services ³

After receipt of a demand for services from Albinspekt bio.inspecta, Albinspekt bio.inspecta can provide the client with an offer for the service (which is adapted to distance, size of unit, type of activity, etc).

- The operator is registered in the system after prepayment **70 %** of the offer.
- Albinspekt bio.inspecta reserves the right to ask for a prepayment of **100 %** of the offer issued in specific cases.

Please keep in mind that the cost of the service depends on the preparation of the operator for the inspection process.

7. Payment modality

The payment will be done according to the invoice issued by Albinspekt bio.inspecta.

- The amount reflected in the invoice may differ from the offer, because it reflects the real costs.
- The total payment or the remaining payments for the service shall be paid within 30 days of receipt of invoice.

³ Note: Please be informed that the offer does not reflect the real cost of the service. The offer is used only to give an approximate cost for the service for the service demanded.

- For any bank transfer that reflects the payment of the costs of the service, the transfer cost shall be covered by the client (sender of the transfer). In case that the transfer costs are divided, Albinspekt bio.inspecta will charge the difference in the following invoices.

8. Changes of the Tariff list

The operator will be informed on the changes in the tariffs in electronic form through email, website or in mail form. For the updated version of the tariffs list please visit www.Albinspekt bio.inspecta.com.

Note: This document is valid from 13.04.2021 and is valid until 31.12.2022. Albinspekt bio.inspecta reserves the right to update it during this time.

Please, be informed that prior application for certification, you have to contact Albinspekt bio.inspecta for the last version of the tariffs.
